

Donation Campaign for the Ukrainian Energy Sector

Since the start of the full-scale Russian invasion of Ukraine, Ukraine's energy infrastructure has been severely damaged or destroyed. In response, the Ukrainian Ministry of Energy (MinEnergo) requested assistance from the German Federal Ministry for Economic Affairs and Climate Action (BMWK). Technical goods are urgently needed for repairs and maintenance.

The donation campaign for Ukraine's energy sector has already facilitated the delivery of over 8.100 energy goods to Ukraine (as of October 2024). The campaign is funded by BMWK and supported by the Secretariat of the German-Ukrainian Energy Partnership, implemented by GIZ.

You donate, we facilitate!

Donation process

- 1. Please send your donation to: helpenergyukraine@giz.de.**
Your donation is tax-deductible.
- 2. The EP Secretariat forwards your offer to the Ministry of Energy of Ukraine,** which matches the donation to a final recipient.
- 3. We inform you once a recipient has been identified** and start preparing the necessary transportation documents with you.
- 4. We arrange the pick-up of your donation** through our Ukrainian partner organization GoLocal and facilitate delivery to Ukraine. Alternatively, you may deliver the goods to a hub at the Polish-Ukrainian border yourself.
- 5. GoLocal transports the goods** to the final recipients.
- 6. The final recipient confirms delivery,** and all partners receive a confirmation.
